

Once Again US Proves It Is Israel's Number One Enabler

The US Ambassador to the United Nations, Nikki Haley, explained at the 2017 AIPAC convention how she led the charge to cover Israel's apartheid tracks as documented by the UN's report, "[Israeli Practices Toward the Palestinian People and the Question of Apartheid](#)." This report clearly exposed Israel as an apartheid state. And, most of the world already knows this.

US Ambassador to the UN,, Nikki Haley, was interviewed at the AIPAC convention in Washington,, DC on March 27, 2017

Armed with no arguments against the carefully researched and documented report, Haley resorted to attacking one of the report's authors, Richard Falk, a respected international law and international relations scholar. who taught at Princeton University for 40 years. Richard Falk also happens to be Jewish. An ad hominem attack like this on a Zionist Jew would have been met with cries of antisemitism and calls for a resignation. This powerful, 4 minute video of UN Ambassador Haley's appearance at the AIPAC convention on March 27, 2017 was put together by our friends and allies at [If Americans Knew](#).
